As the program becomes established, meeting frequency will likely be reduced to monthly.

Training camps, direct coaching opportunities will be scheduled well in advance or at a mutually agreeable time.

The term of the work period will be one year, with an option to continue services being mutually agreed on by both the team member and the OCC.

Participation on the HP team at this time is voluntary, however, the OCC is applying for some grants and anticipate being able to compensate team members on a fee-for-service basis or by honorariums.
