

# RETURNING TO PLAY for Northern Ontario Curling Rinks

**#keepcurling**

**getting back on the ice safely**

# today's webinar.....

- **safety is first and foremost in decision making**
- **getting your plan to your local authority**
- **answer questions for clarity**

# Step 1

- **contact the local health authority asking for their restrictions (including food & beverage)**
- **discuss the financial risks of implementation**
- **communicate with your customers**

# Step 2

- **create a 'return-to-play' working group**
- **the group should include:**
  - **board of director(s)**
  - **club manager (where applicable)**
  - **ice technician**
  - **cleaning staff**
  - **others if you so choose**

# Step 3

- **topics to consider....**

- **understand the local health guidelines**
- **contact your insurance broker**
- **analyze leagues and who plays in them**
- **walk through your traffic flow**
- **use the guidelines**
- **plan for a 'deep' clean of the rink and warm areas**
- **communicate with your customers**

# Step 4

- **new-to-do!**
  - **prepare your waiver forms including the new “Declaration of Compliance”**
  - **source sanitizer, sanitizer dispensers, other cleaning products (bleach), tools**
  - **plan the use of club equipment; i.e. sliders, club brooms, stabilisers**
  - **keeping track: cleaning, customers**

# Step 5

- now use the 'guidelines' to create a custom plan for your rink
- discuss (again) the financial risks of implementation
- once you are ready, submit to local health authorities (if necessary)

# Appendix 5: Distancing Illustrations

## Ready to Deliver

## Stone is Delivered

# Miscellaneous

- **scoreboards - avoid using them**
- **when someone breaks the rules**
- **contact tracing**
- **refrigeration mechanic**
- **masks**
- **food & beverage**
- **payment options**
